FIESTA 6: Demontarea butonului de lumini

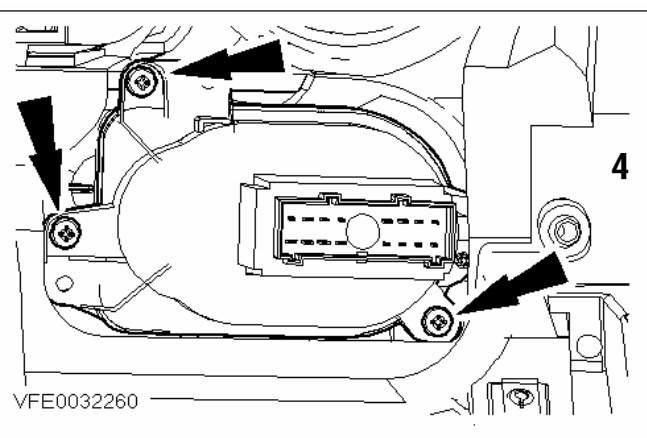

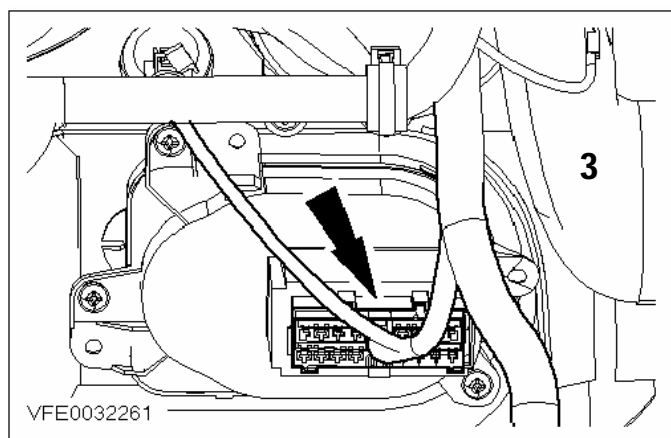

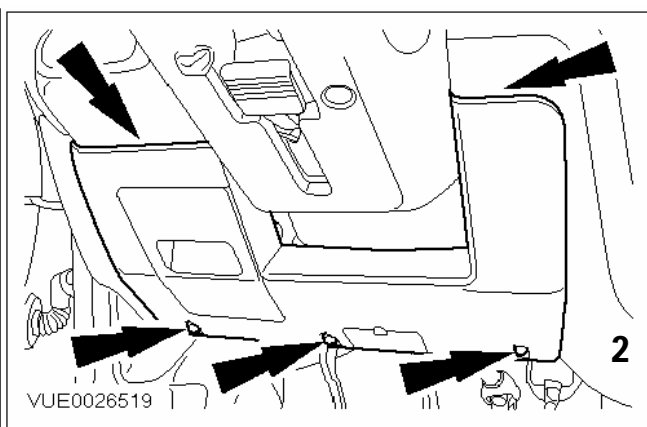

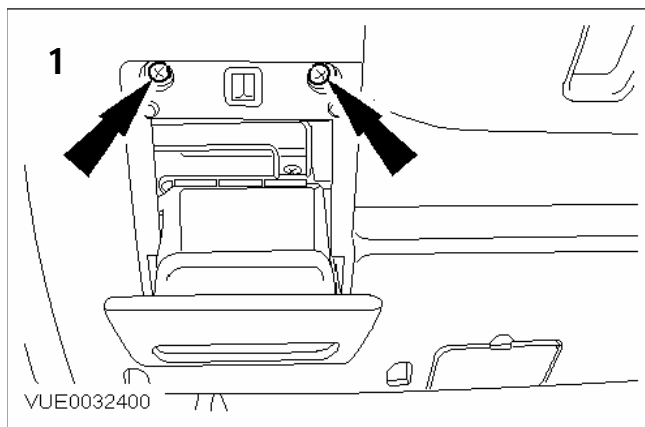

1- se deschide compartimentul de depozitare de sub volan si se desurubeaza cele 2 suruburi

2 – se demonteaza panoul inferior (a nu se forta clipsurile de prindere!!!)

3 – se deconecteaza mufa butonului de lumini

4 – se desurubeaza cele 3 suruburi de fixare a butonului de lumini

Se va identifica firul albastru portocaliu/se sectioneaza si se utilizeaza rigleta pentru conectarea luminilor submarin. Ledurile se aprind o data cu aprinderea pozitiilor/farurilor.
